

Ligature Test Document

This document tests extraction of words containing common ligature combinations (fi, fl, ff, ffi, ffl).

The process was remarkably efficient and well-organized.

By definition, the term encompasses all related concepts.

She walked into the office and sat down at her desk.

The affluent neighborhood attracted many visitors.

This was a particularly difficult problem to solve.

The official statement was released on Monday.

Adding a suffix to the word changed its meaning entirely.

The process of ification requires careful documentation.

The system was taken offline for scheduled maintenance.

A different approach was needed for each situation.
